

## **II. Remarks**

Applicant has amended claim 1 to delete reference to solvate or hydrate. Claims 38 and 39 are new. Claim 38 is supported, for example, at page 6, line 4. Claim 39 is supported throughout the examples which show the production of crystalline material. It is believed that no new subject matter has been amended the amendments submitted herewith.

Accordingly, claims 1-13, 17-19, 38 and 39 currently stand in the present application.

The Examiner rejected old claims 1-2 and 4-11 under 35 U.S.C. §112 (first paragraph) as being non-enabling for solvates and hydrates. While Applicant strenuously disagrees with this objection, for the sole purpose of advancing prosecution of the present application, Applicant has amended claim 1 to remove reference to solvate or hydrate. Accordingly, it is believed the rejection of old claims 1-2 and 4-11 under 35 U.S.C. §112 (first paragraph) is moot.

The rejection of claims 1 and 10 under 35 U.S.C. §112 (second paragraph) is traversed and reconsideration is requested. The Examiner appears to be suggesting that an integer can be 1.5 or 2.5. Enclosed herewith is an excerpt from the Oxford Dictionary which clearly indicates that the term "integer" means "whole number". The Examiner is requested to reconsider and withdraw the rejection of old claims 1 and 10.

The rejection of old claims 3 and 17-19 is believed to be moot. Specifically,

claim 3 is now singularly dependent and claim 17 is the only claim of those noted by the Examiner that is multi-dependent.

It is believed that the above remarks and amendments submitted herein have placed this present application in condition for allowance, and a Notice thereof is requested.

If the Examiner has further concerns, he is encouraged to contact Applicant's undersigned agent at 416-862-5775. All correspondence should continue to be directed to listed address shown below.

Respectfully submitted,
